

“Revealing the majesty of the Creator through the marvels of His creation.”

I believe these studies of creation will open peoples understanding of their Creator and challenge their walk with Him. God is the major theme of these meetings, with evolution being nothing more than a minor element that has to be addressed at times.

These presentations are solidly rooted in Scriptures, informing the hearer while maintaining their interest through vibrant visuals. I believe they will strengthen your congregations conviction that, *“There is no God like (God), in heaven above or in earth beneath.” (1 Kings 8:23)*

Helping set in order

the things that are wanting.

“The heavens declare the glory of God; and the firmament sheweth His handiwork.”

Psalm 19:1

Creation Seminars

I am convinced that one reason so many people doubt the fact of our Creator is they do not understand the incredible nature of His creation. In addressing creation issues, I am not primarily seeking to debunk evolution. Instead, my goal is to point to the marvels of nature so that we may better worship our God. Topics covered may include:

- God's Incredible Creation
Considering the careful craftsmanship of God in creating each individual
- Magnificent Marvels of our Majestic Maker
The expanse of our universe and what it teaches us about our Creator
- To Know our Creator
DNA: Blueprint of life or billboard for God?
- Life's Elaborate Layout
The incredible complexity of life points to an infinitely creative Creator
- What are the Odds of That?
The possibilities of life happening by accident

- Body of Evidence
How our own body testifies of God's perfect creation
- Why Creation is Important
Why believers cannot accept anything other than a literal, six day creation.
- The Gospel and Creation
An exploration of the Bible's presentation of Christ as both Creator and Savior
